

Infield Conditioner

Looking for that high performance, long-lasting, beautiful red infield conditioner? Our 100% Natural infield conditioner is designed to provide superior surface performance along with moisture management. PLAY BALL!® Infield Conditioner:

- Enhances surface playability, field appearance and safety.
- Assists in proper field drainage.
- Reduces compaction. Provides permanent porosity.

Successfully used at major league, minor league, college and high school fields around the US, this calcined clay infield product gives you the performance you need to keep your infield safe, playable and moisture-controlled. Works perfectly with PLAY BALL!® Infield Drying Agent and PLAY BALL!® Mound Clay, or with the premier infield conditioner, BALLGAME CHANGER™.
